Hyderabad: Over 100 corporate executives, founders, and technology leaders were recognised for business excellence and innovation at the Global CXO Awards 2026, held at T-Hub in Raidurg.

Organised by CXO Inc, the summit convened more than 250 industry stakeholdersâ??including CEOs, CFOs, CTOs, investors, and startup foundersâ??from across the country to deliberate on the future of enterprise growth and technology.

An independent jury selected the awardees across key verticals, including Enterprise Leadership, Technology and Data, Digital Transformation, Women Leadership, and Startups.

A major highlight of this yearâ??s edition was the spotlight on Global Capability Centres (GCCs). The awards specifically recognised executives who have pivoted Indian GCCs from traditional cost-arbitrage back offices into strategic hubs driving global R&D, artificial intelligence, and product innovation.

Alongside the felicitation ceremony, the event featured a panel discussion where top executives examined emerging market shifts, scaling strategies, and the technological disruptions reshaping Indiaâ??s corporate landscape.
